

# WALK-THROUGH CHECKLIST

We realize you'll be very busy when it comes time to close on your new home purchase. One of the items on this busy agenda will be **THE FINAL WALK-THROUGH**. It's really much more than a walk; it's usually your last look at the house before financial settlement with the sellers. Your attorney can give you an idea of its full legal significance, but from our laymen's point of view, it's your opportunity (and responsibility) to see that the terms of the contract have been fulfilled and take notice of any change in the physical condition of the property between the date of purchase and closing. Here's a useful checklist to help you through it.
